2023 Sale Rams.

Friday September 15, 2023

Inspection from 10am
Ram Auction 1pm

Open Day – Friday, September 8, 2023
on-property 10am to 4pm (other days by request)
COVID-safe guidelines apply.

ACCREDITED BRUCELLOSIS FREE

FOOTROT FREE

M.N.3

RIVERINA BIOSECURITY AREA

RAM SALE PROGRAMME 2023

Friday, September 8:

Pre-Sale Inspection 10am-4pm
or earlier this week by request.

Friday, September 15:

96 Stud and Specially Selected
Rams auctioned singly through
our undercover sale ring.
24 Selected Rams in pens of 3
(Multiple Hammer)
Inspection from 10am.
Ram Auction 1pm.

Saturday, September 16:

Grade Rams are available
by prior arrangement.

Tuesday, September 19:

200 Grade Rams available starting
this week.

Grade Prices:

Selected \$1,200
Flock \$ 800

Fleece Measurement:

All rams tested by Laserscan in
August 2023.

Interest free deferred payment plan is available upon prior
request for both auction and grade rams to approved clients.

2022 PRODUCTION SALE SUMMARY

115 Rams sold to \$8,250

93 of 95 single lots av. \$3,062
(from a base of \$1000)

22 of 22 Mini Auction av. \$1,545

AVENEL STATISTICS

Area: 6,900 Hectares

Ave. Rainfall: 375mm

Irrigation: 500 Hectares
(if water available)

Year 2023 Joining:

728 Stud Ewes to Poll Sires

478 Stud Ewes to Horned Sires

2,739 Flock Ewes to Merino Sires

Avenel Merino Stud

What a year it has been!

Spring gave us a large body of feed, but it was low in protein and combined with the flood waters in November cutting access to 20% of the property, joining was always going to be difficult. Conditions for joining were not favourable with our usual program disrupted by floodwaters. We were unable to use teasers and flush our ewes, as per normal. Rams were often isolated from the ewes due to floodwaters. We did increase our ram percentage to between 3-5%, dropping additional rams into the ewes at the end of the first cycle.

January gave us 55mm of rain without any follow-up, resulting in a false break. There were no major falls over 13mm until the first week of June with a fall of 32mm. June produced 72mm, giving us a late break and not much trefoil and native medic.

Despite the extreme flood conditions lambmarking results of 114% (to ewes joined) for the flock ewes, including 102% (to ewes joined) for maiden ewes.

Avenel Ram Sale

Friday, 15th September 2023 at 1pm

Accreditation:

Avenel Stud is Monitored Negative 3 for Ovine Johne's Disease, Certificate NS76246 and also is Accredited Ovine Brucellosis-Free and is Footrot Free. Avenel is in the Riverina Biosecurity Areas.

Health:

All sale rams have had four vaccinations with 6-in-1 vaccine and drenched when indicated necessary by worm egg counts. In our client's own interests, we recommend strategic drenching plus vaccinating, toe-cutting and shearing, twice a year.

Triple action drench 31st August 2023 and 6-in-1 booster.

Fleece Measurement:

All rams were machine shorn 14th April, 2023.

All were Laserscan tested by Riverina Wool Testers from side samples taken on 10th August, 2023. The results were as follows:

198 POLL RAMS TESTED

F.D.	20.7 μ
S.D.	3.5
C.V.	17.0
C.F.	98.7%

155 HORN RAMS TESTED

F.D.	19.7 μ
S.D.	3.5
C.V.	17.9
C.F.	98.9%

Body Weights:

Weighed 28th August, 2023. Average Polls 86.0 Average Horned 81.7

3% Rebate to Outside Agents.

AUSTRALIAN SHEEP BREEDING VALUES (ASBVs)

MERINOSELECT is delivered by Sheep Genetics and information is calculated from an analysis of pedigree and performance information contained in the MERINOSELECT database. An Australian Sheep Breeding Value is an estimate of the genetic potential a sheep will pass on to its progeny. Sheep are ranked for various production characteristics using Australian Sheep Breeding Values (ASBVs). **ASBVs are designed to be used in conjunction with visual selection methods to select sheep that match your breeding objectives.**

Yearling Fibre Diameter (YFD): Fibre diameter ASBVs are quoted in microns and are expressed as the deviation from the average of animals in the database in the 1990 drop. The more negative the number the finer the animal. An ASBV of -1.6 means the animal will produce wool that is 1.6 micron finer than the average in 1990. A ram with an ASBV for FD of -1.6 will pass half of this benefit onto his lambs, that is -0.8.

Yearling Clean Fleece Weight (YCFW): A positive Fleece Weight ASBV means a genetically heavier cutting animal. Fleece weight ASBVs are quoted in percentages. ASBVs are deviations from the average of the animals in the database in the 1990 drop. An ASBV of +20% means the animal will cut 20% more wool than the average in 1990. A ram with an ASBV of +20% will pass half of this benefit onto his lambs, that is +10%.

Yearling Staple Strength (SS): Staple Strength ASBVs are quoted in newtons per kilotex (N/ktex) and are deviations from the average of the database in the 1990 drop. as ASBV of +5 means the animal will produce wool that has a staple strength 5 N/ktex higher than the average in 1990. A ram with an ASBV of +5 will pass half of this benefit onto his lambs, that is +2.5.

Yearling Weight (YWT): Weights are measured in kilograms and ASBVs are quoted in kilograms. ASBVs are deviations from the average of animals in the database in the 1990 drop. So an animal with a YWT ASBV of +6kg will be genetically 6kg heavier at yearling age than the average in 1990. A ram with a YWT ASBV of +6kg will pass half of this benefit onto his lambs, that is +3kg.

Yearling Eye Muscle Depth (YEMD): Muscling ASBVs are measured and quoted in millimetres. They are deviations from the average of animals in the database in the 1990 drop. So an animal with an EMD of +1.2 will genetically have an eye muscle 1.2mm deeper than the average in 1990. A ram with an ASBV of +1.2 mm for EMD will pass half of this benefit onto his lambs, that is +0.6 mm.

Yearling Fat (YFAT): Fatness ASBVs are measured and quoted in millimetres. They are deviations from the average of animals in the database in the 1990 drop. An animal with a FAT of +0.6 will be genetically have 0.6mm more subcutaneous fat than the average in 1990. A ram with an ASBV of +0.6 mm for FAT will pass half of this benefit onto his lambs, that is +0.3 mm.

Indexes

An index ranks animals for their suitability to a particular production or breeding objective. Individual ASBVs are weighted according to their relative economic importance and are combined to produce a single figure to rank each animal. Selection of animals for a number of purposes is made easier through the use of MERINOSELECT selection indexes.

The **Merino Production + (MP+)** index ranks animals on their ability to produce progeny for a fine wool operation that has significant surplus sheep sales. The index is aimed at those producers whose sheep income is a balance of both wool and surplus sheep sales.

The **Dual Purpose + (DP+)** index ranks animals on their ability to produce Merinos for a dual purpose operation. It is for self replacing Merino flocks that do not keep their wethers and also join a portion of their ewes to terminal sires for lamb production.

Avenel 2022 drop sale ram ASBV data has been extracted from the MERINOSELECT analysis dated 7th August 2023.

Avenel Poll

Poll lambs.

The Poll Stud has introduced two new sires to maintain the purity and quantity of wool on our sheep.

We purchased Roseville Park RP 210977, "Matthew" for \$18000 with figures of YWT 10.27 (top 10%), YCFW 16.41, YFD -2.24 (top 20%) MP+ 168.5. A very pure woolled ram with great lock structure and staple length. At lambmarking his lambs were impressive.

Scott Thrift with RP210977, "Matthew".

We purchased a Poll ram from Yarrowonga Stud 210935, "Phillip" YGFW 28.47 (top 10%), YCFW 33.8 (top 5%), YFD -1.29 and YSS 3.38 (top 20%). A productive skinned ram with great coverage and productivity.

Phoebe McCrabb and Mim Dalton collecting data.

Data collection process starts all over again. Starting with TSU collection, for DNA, and data collection of EBWR and BCOV scores. Fleece weighing and the use of ASBVs and figures for sheep classing.

Using the data at classing.

News

This year we would like to thank Nutrien for their 43 years of support and welcome AWN and their Stud Stock team led by Scott Thrift to our sale this year.

As an addition we will be auctioning **Lot 23** with the proceeds of this sale to be donated to the **McGrath Foundation** to assist in funding Breast Care Nurses.

Maasai chiefs impressed with Avenel Merinos.

News Update

AVENPART KELPIE STUD

Avenpart has had three litters born recently, having decided not to breed during the hot summer months.

Our litter in April was the first out of our Av. **Ilka** AI (Av. Zondo x Av. Gellybean). A quality all round worker who had six pups by **Nativehut Riggs** (Digga) (Av. Terrie x Idano Anytime). A calm black/tan dog who placed third in the Australian Utility Trial Championships in 2022 and second at the Bendigo Open Yard Trial 2023 and is owned by Marcus Campbell.

Proven mating, Av. **Dom** x Av. **Jessica** pups are working and competing well here, in Canada and the USA. We have retained some of this latest litter as we nearly lost Av. **Dom** who was very ill from February until May. Three operations later, a barley grass seed was located and removed from under a rib. We are unsure of his future ability as a stud or working dog.

We still have Av. **Zeus** who has just bred a litter to **Nativehut Chillii** who won the Novice Yard Trial at Hamilton for Brad Watts this year.

A litter by Av. **Jackaroo** x Av. **Nonee** worked by Peter McGrabb at North Bundy born in May, go back to **Glenville Smoke** bloodlines and will be assessed.

We had the misfortune to lose two of our stud bitches Av. **Verve** and Av. **Gellybean** from suspected blue green algae owing to contaminated flood waters. Progeny from these bitches, Av. **Eveready**, Av. **Ilka** and Av. **Zoe** have been retained at the stud.

Semen sales at home and abroad have all been successful. Av. **Dom's** litter in Canada now proving themselves at 9 months old.

All dogs/bitches in the stud CA tested.

Check www.avenpart-avenel.com or phone us for availability of pups.

Av. Ilka at work.

Av. Ilka's pups.

Avenpart Mirage
Top Ranked Kelpie in the US for 2023
American Kennel Club Agility Invitational

Chilli with pups x Av. Zeus.

Av. Rad, Eveready, Dom and Zeus.

Av. Dom (Doolans Tex x Av. Astra).

Kane AI (Av. Dom x Nomak Sophie) in Ontario, Canada.

Av. Zoe (Bidgee Comb x Av. Verve).

Av. Eveready (Bidgee Comb x Av. Verve).

Avenel Merino and Avenpart Kelpie semen from top sires can be ordered direct or through Annie Romanin at Apiam Genetics Riverina. Telephone: (03) 5881 5515. All breeders are tested for CA.
